2-Litter, Soft Top	M1035	2310-01-146-7194

Current as of 20 January 1988

TM 9-2320-280-20P, June 18, 1987 is changed as follows:

1. Remove old pages and insert new pages as indicated.
2. New or changed material to existing text is indicated by an asterisk (*) placed to the left of the item number. The asterisk indicates the current change only.
3. Added or revised illustrations and text pages are identified by a change number (C01) placed to the right of the TM designation at the top of the affected page.
4. When a figure/item is added and it is necessary to insert it between two existing figures/items, the added figure/item will be assigned the number of the figure/item appearing first in the RPSTL, followed by an alpha character (in alphabetical sequence). For example, the figures inserted between figure 25 and 26 would be numbered figure 25A, 25B, and 25C respectively.

Remove pages	Insert pages	Remove pages	Insert pages
i through vii	i through viii	34-1 and Fig. 35	34-1 and Fig. 35

REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS

(Army) You can help improve this manual. If you find any mistakes or if you know of a way to improve the procedures, please let us know. Mail your letter or DA Form 2028 (Recommended Changes to Publications and Blank Forms), or DA Form 2028-2 located in the back of this manual direct to: Commander, U.S. Army Tank-Automotive Command, ATTN: AMSTA-MB, Warren, MI 48397-5000. A reply will be furnished to you. (Marine Corps) Submit NAVMC 10772 to the Commanding General, Marine Corps Logistic Base (Code 850), Albany, Georgia 31704-5000. A reply will be furnished to you.

Approved for public release; distribution is unlimited.

* This manual supersedes TM 9-2320-280-20P, 13 March 1985.

TABLE OF CONTENTS

		Page	Illus Figure
Section I	INTRODUCTION	1	
Section II	REPAIR PARTS LIST	1-1	1
Group 01	Engine	1-1	1
	0106 Engine oil dipstick and tube assembly	1-1	1
	0106 Engine oil pan, pump, and filler tube	2-1	2
	0106 Oil filter, adapter, and oil line fittings	3-1	3
	0106 Engine and transmission oil cooler and engine oil cooler lines	4-1	4
	0106 Crankcase depression regulator valve and mounting hardware	5-1	5
	0108 Air intake manifold	6-1	6
Group 03	Fuel system	7-1	7
	0302 Fuel pump and mounting hardware	7-1	7
	0302 Fuel injection and fuel filter lines	8-1	8
	0302 Fuel injection supply and return lines	9-1	9
	0304 Air cleaner, air horn, and related parts	10-1	10
	0306 Fuel tank supply and return lines	11-1	11
	0306 Fuel tank assembly and mounting straps	12-1	12
	0306 Fuel filler pipe assembly and vent lines	13-1	13
	0306 Fuel tank vent line, filter, and mounting hardware	14-1	14
	0309 Fuel filter assembly/water separator and mounting hardware	15-1	15
	0311 Glow plug	16-1	16
	0312 Accelerator controls and hand throttle	17-1	17
	0312 Accelerator cable bracket and idle spring	18-1	18
Group 04	Exhaust system	19-1	19
	0401 Muffler, exhaust pipes, and related parts	19-1	19
	0401 Exhaust manifold heat shield	20-1	20
Group 05	Cooling system	21-1	21
	0501 Radiator and mounting hardware	21-1	21
	0501 Surge tank and related parts	22-1	22
	0502 Radiator shroud and related parts	23-1	23
	0503 Radiator hoses and related parts	24-1	24
	0503 Thermostat, water crossover, and attaching hardware	25-1	25
	0504 Water pump and attaching hardware	26-1	26
	0505 Fan assembly, power steering and water pump belts	27-1	27
	0505 Fan drive and pulley	28-1	28
Group 06	Electrical system	29-1	29
	0601 Generator, 60 AMP, belts, pulley, and mounting hardware	29-1	29
	0601 200 AMP alternator assembly belts, pulley, guard, and mounting hardware, M996 and M997 ambulance	29A-1	29A
	0601 200 AMP alternator, M996 and M997 ambulance	29B-1	29B
	0603 Starter motor, cable assemblies, and mounting hardware	30-1	30
	0607 Instrument panel assembly and mounting hardware	31-1	31
	0607 Instrument cluster assembly	32-1	32
	0607 Circuit breakers	33-1	33
	0608 Directional control unit, protective control box, and directional flasher	34-1	34
	0608 Stoplight switch, time delay module, and high beam selector switch	35-1	35
	0608 Control box assembly, M996 and M997 ambulance	35A-1	35A
	0608 Air conditioner and heater control box, M997 ambulance	35B-1	35B
	0608 Personnel heater/vent and A/C control panel, M997 ambulance	35C-1	35C
	0608 Personnel heater/vent control panel, M996 ambulance	35D-1	35D
	0608 24V DC outlet, rear, M996 and M997 ambulance	35E-1	35E
	0608 Front and rear blackout switches, M996 and M997 ambulance	35F-1	35F
	0608 NBC control panel, M996 and M997 ambulance	35G-1	35G
	0609 Front composite light and mounting hardware	36-1	36

TABLE OF CONTENTS (Continued)

			Page	Illus Figure
	0609	Blackout lamp and headlight assembly	37-1	37
	0609	Rear composite light and mounting hardware	38-1	38
	0609	Clearance marker light assembly	39-1	39
	0609	Backup light assembly and mounting hardware	40-1	40
	0609	Blackout, dome, and spotlight, M996 and M997 ambulance	40A-1	40A
	0609	Backup light and mounting hardware, M996 and M997 ambulance	40B-1	40B
	0610	Sending units	41-1	41
	0610	Fuel pressure transducer, fuel level transmitter, parking brake, and backup light switches	42-1	42
	0611	Horn and horn button assembly	43-1	43
	0612	Batteries, cables, and related parts	44-1	44
	0612	Battery mounting components and related parts	45-1	45
	0612	Slave receptacle and cable assemblies	46-1	46
	0613	Engine wiring harness (sheet 1 of 2)	47-1	47
	0613	Engine wiring harness (sheet 2 of 2)	47-2	47
	0613	STE/ICE wiring harness (sheet 1 of 2)	48-1	48
	0613	STE/ICE wiring harness (sheet 2 of 2)	48-2	48
	0613	Hood wiring harness (sheet 1 of 2)	49-1	49
	0613	Hood wiring harness (sheet 2 of 2)	49-2	49
	0613	Body wiring harness and fuel tank jumper assembly	50-1	50
	0613	Body wiring harness — partial view	51-1	51
	0613	Body wiring harness — partial view	52-1	52
	0613	Body wiring harness — partial view	53-1	53
	0613	Air-conditioner jumper cable, M997 ambulance	53A-1	53A
	0613	Wiring harness, blackout jumper switch, M996 and M997 ambulance	53B-1	53B
	0613	Main power cable assembly, M996 and M997 ambulance	53C-1	53C
	0613	Interior lighting harness assembly, M996 and M997 ambulance	53D-1	53D
	0613	Heating/vent harness assembly, M996 ambulance	53E-1	53E
	0613	Aspirator/resuscitator cable assembly, M996 and M997 ambulance	53F-1	53F
	0613	NBC wiring harness, M997 ambulance	53G-1	53G
	0613	NBC wiring harness, M996 ambulance	53H-1	53H
Group 07		Transmission	54-1	54
	0705	Transmission and transfer control assembly and shift rod	54-1	54
	0705	Transmission shift control and neutral start switch	55-1	55
	0705	Transmission shift controls and modulator	56-1	56
	0710	Transmission mounting hardware, fluid dipstick, and tube assembly	57-1	57
	0710	Transmission assembly	58-1	58
	0721	Transmission vent lines and attaching hardware	59-1	59
	0721	Transmission/transfer cooling lines	60-1	60
Group 08		Transfer and final drive assemblies	61-1	61
	0801	Transfer case assembly	61-1	61
	0803	Transfer shift controls	62-1	62
	0804	Transfer case vent line and related parts	63-1	63
Group 09		Propeller, propeller shafts, universal joints, coupler and clamp assembly	64-1	64
	0900	Propeller shafts	64-1	64
Group 10		Front axle	65-1	65
	1000	Front halfshaft assembly, left and right side	65-1	65
	1002	Front axle differential and geared hub vent lines	66-1	66
	1004	Front knuckle and geared hub assembly	67-1	67
	1004	Front control arms, ball joints, and mounting hardware	68-1	68
Group 11		Rear axle	69-1	69
	1100	Rear halfshaft assembly, left and right side	69-1	69
	1102	Axle differential	70-1	70
	1102	Rear axle differential and geared hub vent lines	71-1	71

TABLE OF CONTENTS (Continued)

		Page	Illus Figure
	1104 Rear knuckle and geared hub assembly	72-1	72
	1104 Rear control arms, ball joints, and mounting hardware	73-1	73
Group 12	Brakes	74-1	74
	1201 Parking brake hand lever and cable	74-1	74
	1201 Parking brake hand lever and rod	74A-1	74A
	1201 Parking brake cables and mounting hardware	74B-1	74B
	1201 Parking brake caliper, rotor, and mounting hardware	75-1	75
	1201 Parking brake caliper assembly	75A-1	75A
	1202 Service brake caliper assembly and rotor	76-1	76
	1204 Front service brake lines and proportioning valve	77-1	77
	1204 Rear brake lines and fittings	78-1	78
	1204 Master cylinder assembly	79-1	79
	1205 Hydro-booster	80-1	80
	1206 Service brake pedal assembly	81-1	81
Group 13	Wheels and tracks	82-1	82
	1311 Wheel and runflat assembly	82-1	82
	1313 Tires	83-1	83
Group 14	Steering	84-1	84
	1401 Steering column, wheel, and intermediate shaft	84-1	84
	1401 Steering linkage	85-1	85
	1410 Power steering pump support bracket	86-1	86
	1410 Power steering pump, pulley, and mounting hardware	87-1	87
	1410 Power steering pump assembly	88-1	88
	1411 Power steering pump and hydro-boost hydraulic lines and fittings	89-1	89
	1411 Power steering hydro-boost and fan clutch hydraulic lines and fittings	90-1	90
Group 15	Frame, towing attachments, and drawbars	91-1	91
	1501 Air lift brackets, front upper control arm brackets, front spring seats, and mounting hardware	91-1	91
	1501 Front suspension crossmembers, related parts, and mounting hardware	92-1	92
	1501 Rear suspension crossmembers, related parts, and mounting hardware	93-1	93
	1501 Rear crossmember, upper control arm brackets, spring seats, related parts, and mounting hardware	94-1	94
	1501 Front bumper and lifting shackle	95-1	95
	1501 Front bumper and lifting shackle, winch	96-1	96
	1501 Rear bumper and lifting shackle	97-1	97
	1503 Towing pintle assembly	98-1	98
Group 16	Springs and shock absorbers	99-1	99
	1601 Springs, front and rear	99-1	99
	1604 Shock absorbers, front and rear	100-1	100
	1605 Stabilizer bar and connecting links	101-1	101
	1605 Rear radius rods	102-1	102
Group 18	Body, cab, hood, and hull	103-1	103
	1801 Body assembly components, L.H.	103-1	103
	1801 Body assembly components, R.H.	104-1	104
	1801 Hood assembly and mounting hardware	105-1	105
	1801 Hood assembly grille and related parts	106-1	106
	1801 Hood assembly ballistic grilles and related parts	107-1	107
	1801 Left hand splash shield, radiator side armor, and hood prop rod	108-1	108
	1801 Right hand splash shield and radiator side armor	109-1	109
	1801 Rear fixed doors and mounting hardware	110-1	110
	1801 Engine access cover assembly and steering wheel lock	111-1	111

Section IV.	NATIONAL STOCK NUMBER AND PART NUMBER INDEX	I-1	

ORGANIZATIONAL MAINTENANCE REPAIR PARTS AND SPECIAL TOOLS LIST

SECTION I. INTRODUCTION

1. Scope.

This Repair Parts and Special Tools List (RPSTL) identifies and authorizes spare and repair parts, special tools, special Test, Measurement, and Diagnostic Equipment (TMDE), and other special support equipment required for performance of direct support and general support maintenance of the 1-1/4 ton, 4x4, M998 series vehicles. It authorizes the requisitioning, issue, and disposition of spares, repair parts, and special tools as indicated by the Source, Maintenance, and Recoverability (SMR) codes.

2. General.

In addition to Section I, Introduction, this RPSTL is divided into the following sections:

a. Section II. Repair Parts List. A list of spare and repair parts authorized by this RPSTL for use in the performance of maintenance. The list also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending alphanumeric sequence, with the parts in each group listed in ascending figure and item number sequence. Bulk materials are listed in item name sequence. Repair parts kits are listed separately in their own functional group within section II. Repair parts for repairable special tools are also listed in this section. Items listed are shown on the associated illustration(s)/figure(s).

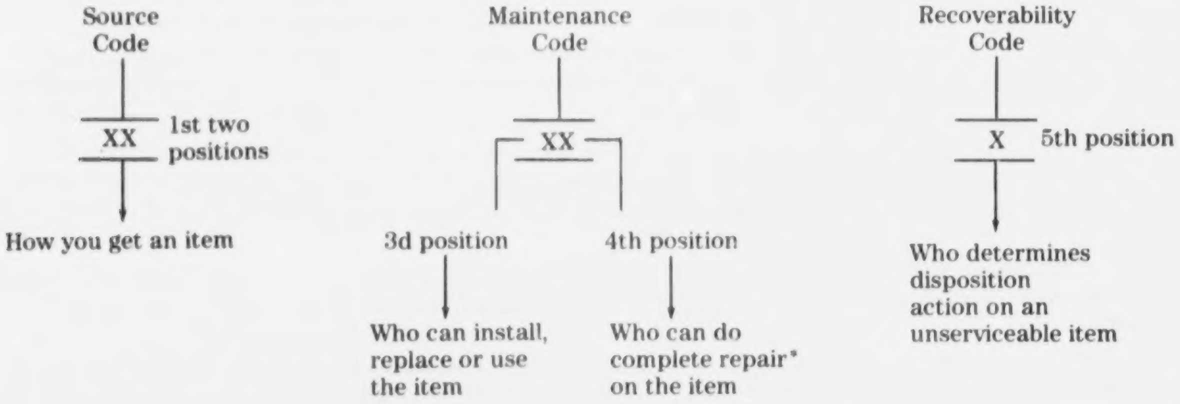
b. Section III. Special Tools List. A list of special tools, special TMDE, and other special support equipment authorized by this RPSTL (as indicated by Basis of Issue (BOI) information in DESCRIPTION AND USABLE ON CODE column) for the performance of maintenance.

c. Section IV. National Stock Number and Part Number Index. A list, in National Item Identification Number (NIIN) sequence, of all National stock numbered items appearing in the listing, followed by a list in alphanumeric sequence of all part numbers appearing in the listings. National stock numbers and part numbers are cross-referenced to each illustration figure and item number appearance.

3. Explanation of Columns (Sections II and III).

a. Column (1) - Item No. Indicates the number used to identify items called out in the illustration.

b. Column (2) - SMR Code. The Source, Maintenance, and Recoverability (SMR) code is a 5-position code containing supply/requisitioning information, maintenance category authorization criteria, and disposition instructions, as shown in the following breakout:



Source Code
XX
1st two positions
How you get an item
Maintenance Code
XX
3d position
Who can install, replace or use the item
4th position
Who can do complete repair* on the item
Recoverability Code
X
5th position
Who determines disposition action on an unserviceable item

* Complete Repair: Maintenance capacity, capability, and authority to perform all corrective maintenance tasks of the "Repair" function in a use/user environment in order to restore serviceability to a failed item.

(1) Source Code. The source code tells you how to get an item needed for maintenance, repair, or overhaul of an end item/equipment. Explanations of source codes follows:

Code	Explanation
PA PB PC** PD PE PF PG	Stocked items; use the applicable NSN to request/requisition items with these source codes. They are authorized to the category indicated by the code entered in the 3d position of the SMR code. ** NOTE: Items coded PC are subject to deterioration.
KD KF KB	Items with these codes are not to be requested/requisitioned individually. They are part of a kit which is authorized to the maintenance category indicated in the 3d position of the SMR code. The complete kit must be requisitioned and applied.
MO- (Made at Org Level) MF- (Made at DS Level) MH- (Made at GS Level) MD- (Made at Depot)	Items with these codes are not to be requested/requisitioned individually. They must be made from bulk material which is identified by the part number in the DESCRIPTION AND USABLE ON CODE (UOC) column and listed in the bulk material group of the repair parts list in the RPSTL. If the item is authorized to you by the 3d position code of the SMR code, but the source code indicates it is made at a higher level, order the item from the higher level of maintenance.
AO- (Assembled by Org Level) AF- (Assembled by DS Level) AH- (Assembled by GS Level) AD- (Assembled by Depot)	Items with these codes are not to be requested/requisitioned individually. The parts that make up the assembled item must be requisitioned or fabricated and assembled at the level of maintenance indicated by the source code. If the 3d position code of the SMR code authorizes you to replace the item, but the source code indicates the item is assembled at a higher level, order the item from the higher level of maintenance.
XA	- Do not requisition an "XA"-coded item. Order its next higher assembly. (Also, refer to the NOTE below).
XB	- If an "XB" item is not available from salvage, order it using the FSCM and part number given.
XC	- Installation drawing, diagram, instruction sheet, field service drawing, that is identified by manufacturer's part number.
XD	- Item is not stocked. Order an "XD"-coded item through normal supply channels using the FSCM and part number given, if no NSN is available.

NOTE

Cannibalization or controlled exchange, when authorized, may be used as a source of supply for items with the above source codes, except for those source coded "XA".

(2) Maintenance Code. Maintenance codes tell you the level(s) of maintenance authorized to USE and REPAIR support items. The maintenance codes are entered in the third and fourth positions of the SMR code as follows:

(a) The maintenance code entered in the third position tells you the lowest maintenance level authorized to remove, replace, and use an item. The maintenance code entered in the third position will indicate authorization to one of the following levels of maintenance:

Code	Application/Explanation
C	- Crew or operator maintenance done within organizational maintenance.
O	- Organizational level can remove, replace, and use the item.
F	- Direct support level can remove, replace, and use the item.

H	- General support level can remove, replace, and use the item.
D	- Depot level can remove, replace, and use the item.

(b) The maintenance code entered in the fourth position tells whether or not the item is to be repaired and identifies the lowest maintenance level with the capability to do complete repair (i.e., perform all authorized repair functions). (NOTE: Some limited repair may be done on the item at a lower level of maintenance if authorized by the Maintenance Allocation Chart (MAC) and SMR codes.) This position will contain one of the following maintenance codes:

Code	Application/Explanation
O	- Organizational is the lowest level that can do complete repair of the item.
F	- Direct support is the lowest level that can do complete repair of the item.
H	- General support is the lowest level that can do complete repair of the item.
D	- Depot is the lowest level that can do complete repair of the item.
Z	- Nonreparable. No repair is authorized.
B	- No repair is authorized. (No parts or special tools are authorized for the maintenance of a "B" coded item.) However, the item may be reconditioned by adjusting, lubricating, etc., at the user level.

(3) Recoverability Code. Recoverability codes are assigned to items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the SMR code as follows:

Code	Application/Explanation
Z	- Nonreparable item. When unserviceable, condemn and dispose of the item at the level of maintenance shown in 3d position of SMR code.
O	- Reparable item. When uneconomically reparable, condemn and dispose of the item at organizational level.
F	- Reparable item. When uneconomically reparable, condemn and dispose of the item at the direct support level.
H	- Reparable item. When uneconomically reparable, condemn and dispose of the item at the general support level.
D	- Reparable item. When beyond lower level repair capability, return to depot. Condemnation and disposal of item not authorized below depot level.
A	- Item requires special handling or condemnation procedures because of specific reasons (e.g., precious metal content, high dollar value, critical material, or hazardous material). Refer to appropriate manuals/directives for specific instructions.

c. Column (3) - FSCM. The Federal Supply Code for Manufacturer (FSCM) is a 5-digit numeric code which is used to identify the manufacturer, distributor, or Government agency, etc., that supplies the item.

d. Column (4) - Part Number. Indicates the primary number used by the manufacturer (individual, company, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications standards, and inspection requirements to identify an item or range of items.

NOTE

When you use an NSN to requisition an item, the item you receive may have a different part number from the part ordered.

e. Column (5) - Description and Usable on Code (UOC). This column includes the following information:

(1) The Federal item name and, when required, a minimum description to identify the item.

(2) Items that are included in kits and sets are listed below the name of the kit or set.

(3) Spare/repair parts that make up an assembled item are listed immediately following the assembled item line entry.

(4) Part numbers for bulk materials are referenced in this column in the line item entry for the item to be manufactured/fabricated.

(5) The effective serial numbers are shown on the last line(s) of the description (before UOC) when the item is not used with all serial numbers of the same model.

(6) The usable on code, when applicable (refer to paragraph 5, Special Information).

(7) In the Special Tools List section, the basis of issue (BOI) appears as the last line(s) in the entry for each special tool, special TMDE, and other special support equipment. When density of equipments supported exceeds density spread indicated in the basis of issue, the total authorization is increased proportionately.

(8) The statement "END OF FIGURE" appears just below the last item description in colum 5 for a given figure in both Section II and Section III.

f. Column (6) - QTY. The QTY (quantity per figure column) indicates the quantity of the item used in the breakout shown on the illustration figure, which is prepared for a functional group, subfunctional group, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that the quantity is variable and may vary from application to application.

4. Explanation of Columns (Section IV).

a. National Stock Number (NSN) Index.

(1) Stock Number Column. This column lists the NSN by National item identification number (NIIN) sequence. The NIIN consists of the last nine digits of the NSN (i.e., $\overbrace{5305\text{-}\underbrace{01\text{-}674\text{-}1467}_{\text{NIIN}}}^{\text{NSN}}$). When using this column to locate an item, ignore the first 4 digits of the NSN. However, the complete NSN should be used when ordering items by stock number.

(2) Fig. Column. This column lists the number of the figure where the item is identified/located. The figures are in numerical order in Section II and Section III.

(3) Item Column. The item number identifies the item associated with the figure listed in the adjacent FIG. column. This item is also identified by the NSN listed on the same line.

b. Part Number Index. Part numbers in this index are listed by part number in ascending alphanumeric sequence (i.e., vertical arrangement of letter and number combination which places the first letter or digit of each group in order, A through Z, followed by the numbers 0 through 9 and each following letter or digit in like order).

(1) FSCM Column. The Federal Supply Code for Manufacturer (FSCM) is a 5-digit numeric code used to identify the manufacturer, distributor, or Government agency, etc., that supplies the item.

(2) Part Number Column. Indicates the primary number used by the manufacturer (individual, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications standards, and inspection requirements to identify an item or range of items.

(3) Stock Number Column. This column lists the NSN for the associated part number and manufacturer identified in the part number and FSCM columns to the left.

(4) Fig. Column. This column lists the number of the figure where the item is identified/located in Section II and Section III.

(5) Item Column. The item number is that number assigned to the item as its appears in the figure referenced in the adjacent figure number column.

5. Special Information.

a. Usable on Code. The usable on code appears in the lower left corner of the description column heading. Usable on codes are shown as "UOC: . . . ." in the description column (justified left) on the first line applicable item description/nomenclature. Uncoded items are applicable to all models. Indentification of the usable on codes used in the RPSTL are:

Code	Used On
H11	M966 WO/W
H12	M1036 W/W
H13	M998 WO/W
H14	M1038 W/W
H15	M997 WO/W
H16	M996 WO/W
H17	M1025 WO/W
H18	M1026 W/W
H20	M1035 WO/W
H21	M1037 WO/W
H24	M1045 WO/W
H25	M1043 WO/W
H26	M1044 W/W
H27	M1046 W/W
H28	M1042 W/W

b. Fabrication Instructions. Bulk materials required to manufacture items are listed in the bulk material functional group of this RPSTL. Part numbers for bulk materials are also referenced in the description column of the line item entry for the item to be manufactured/fabricated. Detailed fabrication instructions for items source codes to be manufactured or fabricated are found in TM 9-2320-280-20 and TM 9-2320-280-34.

c. Kits. Line item entries for repair parts kits appear in Functional Group 9401 in Section II.

d. Index Numbers. Items which have the word BULK or KITS in the figure column will have an index number shown in the item number column. This index number is a cross-reference between the National Stock Number/Part Number Index and the bulk material or kits list in Section II.

e. Associated Publications. The publications listed below pertain to the 1-1/4 ton, 4x4, M998 series vehicles and their components:

LO 9-2320-280-12	Lubrication Order
TM 9-2320-280-10	Operator's Manual
TM 9-2320-280-10-HR	Hand Receipt Manual
TM 9-2320-280-20	Organizational Maintenance Manual
TM 9-2320-280-34	Direct Support and General Support Maintenance Manual
TM 9-2320-280-34P	Direct Support and General Support Repair Parts and Special Tools List
TM 9-2815-237-34	Direct Support and General Support Engine Maintenance Manual
TM 9-2815-237-34P	Direct Support and General Support Maintenance Repair Parts and Special Tools List
DMWR 9-2520-527	Depot Maintenance Work Requirements, Transmission, Automatic
DMWR 9-2520-528	Depot Maintenance Work Requirements, Transfer, Constant Drive
DMWR 9-2520-529	Depot Maintenance Work Requirements, Differential, Locking
DMWR 9-2815-237	Depot Maintenance Work Requirements, Engine

f. Illustrations. Item numbers on illustrations have been assigned in clockwise sequence, starting at the 11 o'clock position (upper left).

g. Illustrations — Listing. The illustrations in this RPSTL are identical to those published in the TM 9-2815-237-34P and TM 9-2320-280-34P. Only those parts coded "C" or "O" in the third position of the SMR Code are listed in the tabular listing; therefore, there may be a break in the item number sequence. Only illustrations containing organizational authorized items appear in this RPSTL.

h. USMC SMR Codes.

1. There are cases in TM 2320-20P/8 where the USMC uses different SMR codes than the Army. The list provided below identifies these differences and is for Marine Corps use only. This list is the only place in TM 2320-20P/8 where these differences appear. It is recommended that Marine Corps technicians make the appropriate annotations within the body of this techical manual.

2. All items with PB, PC, PD, PE, PF, or PG in the first two positions of the SMRC will be PA for the USMC.

FOR USMC USE ONLY

i. **BOI.** The Basis of Issue (BOI) for the tools listed in section III of this RPSTL is as follows:

Level	Unit Description	BOI
Organizational (O)	Maintenance unit, section or team (authorized a common tool set)	1
Direct Support (DS)	Company/System Support Team (except the following)	1
	Motorized Division/Heavy Division	
	Heavy Maintenance Co.	2
	Airborne/Assault Division	
	Forward Support Co.	2
	Heavy Maintenance Co.	3
	Light Infantry Division	
	Heavy Maintenance Co.	6
	Light Maintenance Co.	0
General Support (GS)	Maintenance Co.	1
	Heavy Equipment Maintenance Co.	2

6. How to Locate Repair Parts.

a. When National Stock Number or Part Number is Not Known.

(1) First. Using the table of contents, determine the assembly group or subassembly group to which the item belongs. This is necessary since figures are prepared for assembly groups and subassembly groups, and listings are divided into the same groups.

(2) Second. Find the figure covering the assembly group or subassembly group to which the item belongs.

(3) Third. Identify the item on the figure and note the item number.

(4) Fourth. Refer to the Repair Parts List for the figure to find the part number for the item number noted on the figure.

(5) Fifth. Refer to the Part Number Index to find the NSN, if assigned.

b. When National Stock Number or Part Number is Known.

(1) First. Using the Index of National Stock Numbers and Part Numbers, find the pertinent National Stock Number or Part Number. The NSN index is in National Item Identification Number (NIIN) sequence [see 4.a.(1)]. The part numbers in the part number index are listed in ascending alphanumeric sequence (see 4.b.). Both indexes cross-reference you to the illustration figure and item number of the item you are looking for.

(2) Second. After finding the figure and item number, verify that the item is the one you're looking for, then locate the item number in the repair parts list for the figure.
